Profile

I'm a Frontend Developer, looking for challenges where I can apply my skills to deliver high-quality and user-friendly experiences and grow as a developer. I tend to spend good part of my free time learning and keeping up with ways to solve problems most efficiently. Task-driven, and with high attention to detail.

Projects

Food Ordering Web (https://panchos.com.sv)
May 2022 - Aug 2022

Development of a food ordering web app that meets the requirements of a restaurant for taking orders, processing payments through a local payment gateway, and track their status.

- Backend, using PostgreSQL, Nest.js with Typescript and TypeORM.
- Food Ordering Web App using Next.js, Redux, and Tailwind
- Administration Dashboard using React, Redux, and Mantine UI,

And the deployment on a server. Working with constant feedback to ensure that every functionality is delivered as needed.

Education

Mechanical Engineering, Universidad de El Salvador
Feb 2017 - Present

Learned the fundamentals of algorithms and OOP with JAVA, and worked with Python to write scripts to speed up design processes.

Recent Courses

Full Stack for Front-End Engineers, Frontend Masters
Jun 2022 - Jul 2022

Production-Grade Next.js, Frontend Masters
